Functions:

Common Functions of PWD and Barrier-Free Environment Cells

- **Advocacy and Awareness:**

Promoting the rights and inclusion of persons with disabilities, raising awareness about accessibility standards, and educating the public about the importance of barrier-free environments.

- **Policy Development and Implementation:**

Developing and implementing policies, guidelines, and standards related to accessibility, ensuring compliance with relevant regulations, and monitoring the effectiveness of accessibility measures.

- **Accessibility Audits and Assessments:**

Conducting regular audits of buildings, infrastructure, and information systems to identify and address barriers, and providing recommendations for improvements.

- **Technical Assistance:**

Providing technical expertise and support to building owners, developers, and designers to ensure compliance with accessibility standards during construction and renovation.

- **Training and Capacity Building:**

Organizing training programs for professionals and the public on accessibility principles, standards, and best practices.

- **Dispute Resolution:**

Handling complaints and disputes related to accessibility, ensuring that individuals with disabilities have access to support and redressal mechanisms.

- **Monitoring and Evaluation:**

Tracking the progress of accessibility initiatives, evaluating their effectiveness, and making necessary adjustments to improve outcomes.

- **Collaboration and Partnerships:**

Working with government agencies, non-governmental organizations, and other stakeholders to promote accessibility and create barrier-free environments.

- **Accessibility in Digital Media:**

Ensuring that websites, applications, and other digital platforms are accessible to individuals with disabilities, providing assistive technologies and support.

- **Accessibility in the Built Environment:**

Ensuring that buildings, infrastructure, and public spaces are accessible to all, including ramps, elevators, accessible restrooms, and signage
