About Us

Nagam Mohan Reddy
Founder & Chairman

Megha & Omega Group of Institutions - Hyderabad, India was established in the year 2001, in the capital city of Telangana State. The major aim is to establish a standardized method of transferring knowledge to the upcoming generation.

The first milestone, Omega Junior College was established in the year 2001 at Habsiguda, Hyderabad. Over the 19 years of its successful service in the educational sector, Megha & Omega Group of Institutions has been spreading its wings in different streams of education including Arts, Commerce, Sciences, Engineering, Pharmacy, Business Administration, Defence and Hotel Management.

Megha & Omega Group of Institutions aim at empowering the future generation with the state - of - the art facilities available for teaching - learning process. The students are trained to meet the industry standards right from their first year. Training is given on both Technical and Non-Technical including Soft Skills which are very much required for the industry. This enhances the employability of the students.

Our alumni are working with some of the reputed companies like Aurobindo, Lupin, Dr. Reddy's, Cadila and other National and Multi National Companies at various positions.

Thus proving - an investment in knowledge always pays the best interest.

Mission

To provide value based academic education by adapting the new industry requirements to develop the future leaders.

Vision

To become one of the leading educational institutes by providing new - age, industry oriented, holistic development to our students.

Kasireddy Malathi Reddy
Vice Chairperson

About the College

Omega College of Pharmacy was established in 2007 so as to develop a premier educational institution to meet the requirements of pharmaceutical industry and health care profession in India & World at large. It is one of the pioneer colleges affiliated to Osmania University, Hyderabad. The highest level of academic standards, facilities and faculty of the college has been recognized by National apex body - Pharmacy Council of India.

B. Pharmacy course was started in 2007, M. Pharmacy was started in 2011 and Pharm D was started in 2017. We are a forward-thinking College aiming to prepare our students for a rapidly changing world by equipping them with critical thinking skills, research perspective, global perspective, and respect for core values of honesty, integrity, loyalty, and compassion. The mission is to provide higher education by refining traditional methods of teaching to make the students work globally and competently.

Omega College of Pharmacy has been working with an objective to create an atmosphere agreeable for synchronizing academia, R&D & industry - through guidance and exploration. With constant hard work, it has transformed itself to be an Institute of Teaching and Research in Pharmaceutical Sciences. Through our Institute, we encourage students to research and study new areas in emerging segments in the field of Pharmaceutical Sciences.

Courses in Detail

B. Pharmacy

Bachelor of Pharmacy

B. Pharmacy is an undergraduate degree course in the pharma field of 4 years duration. After the completion of this course, an individual can practice as a Pharmacist or Chemist. This course teaches students how to prepare and dispense medicine and to convey the drug related information to public. On completion of course, Students are capable of evaluating drugs and drug use pattern.

Pharm-D

Doctor of Pharmacy

Pharm-D is a 6 years Doctorate level course, including five years of academic study and a year of internship. The course aims to prepare eligible candidates in the management of patient medication therapy and improving patient outcomes. This course covers basic pharmacy education including the application of chemistry in the pharmaceutical industry, concepts of biochemistry, pharmacology and toxicology.

Pharm-D is an entry-level course that acts as a gateway for aspirants to pursue higher studies either from India or abroad. Upon completing the course successfully, postgraduates are lucratively employed in both private and government hospitals, or run their own pharmacy. They can work in pharmaceutical companies in the fields of pharmaco vigilance and clinical research.

Pharm-D (PB)

Pharm-D (Post Baccalaureate)

Pharm-D (PB) is a 3 years Professional Doctorate level course in the discipline of Pharmacy, open for pursuance by eligible graduates of Pharmacy, completed from an institute recognized by the PCI. The course aims to prepare eligible candidates in the management of patient medication therapy and improving patient outcomes. Upon completing the course successfully, postgraduates are lucratively employed in both private and government hospitals, or run their own pharmacy. They can work in pharmaceutical companies in the fields of pharmaco vigilance and clinical research.

M. Pharmacy

Master of Pharmacy

M. Pharmacy is a Post Graduate Degree in the field of Pharmaceutical Science and its related subjects. This is a highly pursued professional course whose minimum eligibility is that the interested students must have completed a B Pharmacy course from a college recognized by Pharmacy Council of India (PCI).

Pharmaceutics is related to production of medicines and technology that is used in production of drugs used in pharmaceutical companies. This has scope in the formulations of drugs, research in formulations, manufacturing & drug regulatory affairs.

Pharmaceutical Analysis essentially involves concepts and processes of drug development, elucidation of structure, qualitative, and quantitative analysis of a drug, and its contaminants.
